Title : Symantec Backup Exec 12
for Windows (STS)

Version : Demo

1. Which backup method should you use to back up only the files that were changed today?

- A. full
- B. working set
- C. archive
- D. differential

Answer: B

2. Which option or agent was enhanced to support Windows Server 2008 Read Only Domain Controllers (RODC)?

- A. Central Admin Server Option (CASO)
- B. Agent for Microsoft SharePoint
- C. Active Directory Recovery Agent
- D. Advanced Open File Option (AOFO)

Answer: C

3. Which statement is true about performing a granular restore of an Active Directory object to a Windows 2008 Read-Only Domain Controller (RODC)?

- A. Granular restores of individual objects to the RODC are NOT allowed.
- B. The Windows Active Directory service on the RODC must be stopped before the restore starts.
- C. The individual object must first be restored to the Windows Active Directory Lightweight Directory Service (Ad LDS).
- D. The Windows VSS service on the RODC must be stopped before the restore starts.

Answer: A

4. Which three security attributes does Symantec Backup Exec 12 designate for its service account or an existing user account during installation? (Select three.)

- A. domain administrator
- B. backup operator
- C. create a token object
- D. administrative network

E. event viewer operator

Answer: ABC

5. Which Symantec Backup Exec 12 Agent/Option is necessary for encrypting a backup?

A. Advanced Device and Media Management (ADAMM)

B. Central Admin Server Option (CASO)

C. Advanced Open File Option (AOFO)

D. Remote Agent for Windows Systems (RAWS)

Answer: D

6. Which two actions can you perform on a selection list when running in a Central Admin Server Option (CASO) environment? (Select two.)

A. restrict backup to specific devices on media servers

B. restrict which users can run restore jobs

C. restrict backup to media servers in a pool

D. restrict which media servers can run duplicate jobs

Answer: AC

7. You need to restore data from a family of three tapes. The first tape is missing.

Which option should you change to allow the remaining tapes to be cataloged?

A. "Request all media in the sequence for catalog operations"

B. "Use storage media-based catalogs"

C. "Enable direct access recovery"

D. "Associate media with 'Imported Media' media set"

Answer: A

8. What are three types of templates? (Select three.)

A. Duplicate Backup Sets template

B. Export Media template

C. Synthetic Backup template

D. Erase Media template

E. Import Media template

Answer: ABC

9. Which three options are available for Symantec Backup Exec 12? (Select three.)

A. Backup Exec SAN Media Server Option

B. Backup Exec System Recovery Option

C. Backup Exec Inline Tape Copy Option

D. Backup Exec Desktop Laptop Option

E. Backup Exec Intelligent Disaster Recovery Option

Answer: BDE

10. What are three features of the Central Admin Server Option (CASO)? (Select three.)

A. distributed catalogs

B. administration of NetWare media server

C. load balancing across media servers

D. management of other central administration servers

E. centralized catalogs

Answer: ACE

11. What are three functions that the Symantec Backup Exec 12 media server performs? (Select three.)

A. controls and manages backup and restore operations

B. controls authentication and access to the SAN disk storage

C. maintains the Backup Exec 12 database

D. attaches to and controls storage device hardware

Answer: ACD

12. How do you back up data residing on a network share that is not visible in the backup selections?

A. change the security of the network share to "full control"

B. add the UNC path in user-defined selections

- C. install the Network Share Publishing Agent
- D. install the NDMP option on the computer hosting the network share

Answer: B

13. Which components make up the basic Symantec Backup Exec 12 installation?

- A. Central Administration Server (CAS), media server, storage devices, and media
- B. media server, Administration Console, domain controller, and clients
- C. Central Administration Server (CAS), Administration Console, storage controllers, and media
- D. media server, Administration Console, storage devices, and clients

Answer: D

14. What are three supported processor types for installing/running Symantec Backup Exec 12? (Select three.)

- A. AMD
- B. Itanium
- C. Pentium
- D. Xeon

Answer: ACD

15. What do backup-to-disk folders provide? (Select three.)

- A. faster method to back up and restore data
- B. concurrent jobs to the same backup-to-disk folder
- C. encryption when using Granular Recovery Technology
- D. backup-to-disk with scheduled duplication to tape

Answer: ABD

16. What is a benefit of using preallocation in a backup-to-disk folder?

- A. reduces file fragmentation
- B. assigns media to backup jobs
- C. assigns a backup-to-disk folder to a duplication job

D. prevents a job from running low on disk space

Answer: A

17. Which statement is true about removable backup-to-disk folders?

A. They can exist on tape or disk media.

B. They can span multiple media.

C. Performance is significantly enhanced.

D. Only USB is supported.

Answer: B

18. Which three properties can you configure when creating a media set? (Select three.)

A. overwrite protection periods

B. media vault rules

C. bar code rules

D. append periods

Answer: ABD

19. When does a media's overwrite protection period begin?

A. at the time of the last write to the media

B. when the media is allocated to the media set

C. at the time of the first write to the media

D. when the media is ejected from the drive

Answer: A

20. What are two characteristics of the default media set named *"Keep Data Infinitely - Do Not Allow Overwrite"*? (Select two.)

A. applies to all backup jobs until you create another media set

B. allows data to be appended to media for 90 days

C. cannot change the defaults for this media set

D. requires continuous introduction of Scratch Media unless you change the defaults

Answer: AD

21. If you use Symantec Backup Exec 12 to remove media from a device or slot, which location displays the media?

- A. online media
- B. offline media
- C. user-defined media vault
- D. Scratch media set

Answer: B

22. If the overwrite protection period is current, when can media be overwritten? (Select three.)

- A. when the overwrite protection level is set to None
- B. when the media is erased, formatted, or labeled
- C. when the media is associated with the Scratch media set
- D. when the append period is expired

Answer: ABC

23. Which two periods must be defined when creating a Symantec Backup Exec 12 media set?

- A. append and overwrite protection periods
- B. system and overwrite protection periods
- C. retention and overwrite protection periods
- D. append and retention periods

Answer: A

24. Where can you find a list of all the media that is required for a restore job?

- A. All Media node
- B. media set
- C. Reports tab
- D. media vault

Answer: C

25. Which two backup methods can reset the archive bit on files? (Select two.)

- A. working set
- B. differential
- C. full
- D. incremental

Answer: CD

26. With which two backup methods can the option "use the Microsoft Change Journal if available" be used? (Select two.)

- A. archive
- B. incremental
- C. differential
- D. working set

Answer: BC

27. What are three advantages of using the working set backup method? (Select three.)

- A. requires fewer media to restore
- B. requires less time to perform than a full backup
- C. includes data that have been accessed in a specific number of days
- D. provides a current backup of the entire system in one backup set

Answer: ABC

28. What are three consequences of doing only full backups? (Select three.)

- A. only allows full restores
- B. redundant backups
- C. takes more time
- D. requires more media

Answer: BCD

29. Which type of backup is used for an online database?

- A. snapshot
- B. flat
- C. active
- D. cold

Answer: A

30. Which database component is installed with Symantec Backup Exec 12?

- A. Microsoft SQL Server 7
- B. Microsoft SQL Server 2005
- C. Microsoft SQL Server 2000 (SP-3a)
- D. Microsoft SQL Server 2005 Express Edition

Answer: D
